

## Water Environment & Technology 2019 editorial calendar

**W** *E&T* tells your stories every month. This calendar shows when we plan to cover the the water sector's most timely topics.

Want to share a story about something not listed? Contact us. We consider submissions on any water-related topic. Send your idea, abstract, outline, or completed manuscript to [magazine@wef.org](mailto:magazine@wef.org)

[wef.org](http://wef.org). All submissions must include phone number and e-mail address of the corresponding author.

Month	Topics	Deadlines
January	2019 State of the Industry • Workforce planning Infrastructure renewal • SCADA	Sept. 30, 2018
February	Odor & corrosion control • Operator health & safety Nutrient treatment & recovery • Pipe rehabilitation & installation	Oct. 15, 2018
March	Decentralized systems • Energy recovery & generation Membranes • Direct & indirect potable reuse	Oct. 31, 2018
April	Residuals & biosolids • Financial resilience & sustainability Stormwater • Industrial pretreatment & high-strength wastes	Nov. 15, 2018
May	Collection systems • Water supply & quality monitoring Public outreach • Disinfection & emerging pathogens	Dec. 15, 2018
June	Pumps & motors • Nutrient removal & recovery Preliminary treatment (headworks) • Energy conservation & generation	Jan. 15, 2019
July	Funding & financing • Stormwater • Biological treatment • Instrumentation	Feb. 15, 2019
August	Flow monitoring & measurement • Reuse • Filtration Industrial pretreatment & high-strength wastes	March 15, 2019
September	New technologies • Aeration • Utility management • Operator training	April 15, 2019
October	CSOs/SSOs • Instrumentation • Odor & corrosion control • Tanks & storage	May 15, 2019
November	Clarification • Pumps & pump stations Preliminary treatment (headworks) • Disinfection	June 15, 2019
December	Operations Challenge • Stormwater • Automation & controls Thickening & dewatering	July 15, 2019
